

AN OVERVIEW FOR CONSULTANTS

Evernorth Oncology Benefit ServicesSM

The impact of cancer transcends both the pharmacy and medical benefit, and impacts patients, their families and plans.

Patients are often forced to navigate their difficult and overwhelming oncology journey with very little guidance or resources.

34%

of patients need more assistance to find “the right” specialist¹

~350%

higher costs to treat cancer caught at stage 4 vs. stage 1²

50%

of cancer caregivers report high emotional stress³

Members with socioeconomic challenges incur additional and unnecessary hardships⁴

Financial toxicity can delay diagnosis, disrupt treatment and cause other problems that lead to early mortality. **Most commonly affected are those with low incomes, Black, Hispanic and Latino individuals and young adults.**⁵

10%

increased mortality risk every month that treatment is delayed⁶

30-50%

increase in treatment cost for cancers diagnosed in later stages⁷

Plans face continuous setbacks

Plan sponsors are exhausted from navigating multi-point solutions and need one single point of entry that improves the member experience while improving clinical outcomes.

Oncology expenditures are one of the top drivers of plan costs for 88% of employers.⁸

! \$441B

expected spend on cancer medicines by 2029 (up from \$252B in 2024)⁹

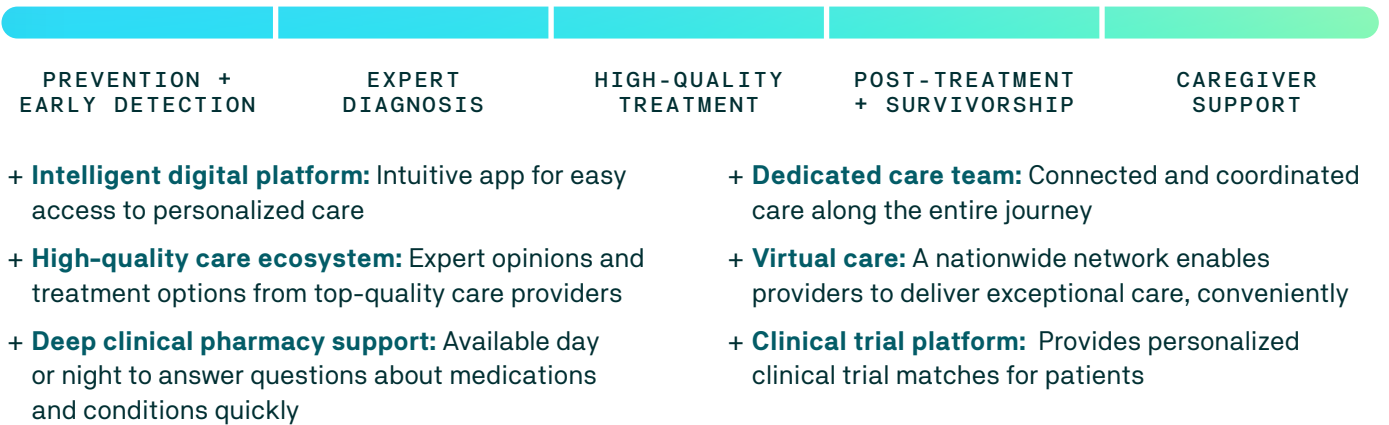

A single decision point to close the cancer care gap.

Evernorth Oncology Benefit Services improves patient outcomes and experience at a more affordable cost.

Evernorth integrates our services throughout the enterprise to enable the coordination of oncology treatment across provider, medical and pharmacy.

| + | + | + | + |

One oncology benefit for members across the entire spectrum of care

The solution covers all cancer types. Our bundles support the following types of cancer: breast, thyroid, colorectal, lung, brain, prostate, bladder, pancreatic and gynecologic cancers.*

The Evernorth difference

We are committed to meeting the American Cancer Society Health Equity guidelines to advance access to care for all, lower pre-negotiated price points and cover travel costs to leading cancer research centers.

Patients will also have a **simplified billing structure** and pay a single copay which covers surgery, radiation and chemotherapy treatments.
