

Every fertility journey is personal. Now, so is the care.

Each fertility journey is unique. But the need for fertility care is becoming more common. One in five people will face infertility. So it's important to have a pharmacy partner that specializes in fertility treatments to create an easier, seamless experience to address this growing challenge for growing families.

Freedom Fertility by Evernorth® provides the medication and individualized support your members need to address the personal challenge of fertility treatment.

61% of employees receiving employer-sponsored fertility benefits feel more loyal.*

Personalized guidance for every hopeful parent

24/7 clinical support

- + Members can access fertility-specific pharmacists any time, day or night, to ask questions and help them stay on track with their medication.
- + Our facilities are open seven days a week with extended hours of operation so members always have somewhere to turn.

Easy medication tracking

- + Members are notified via email once their prescription has been picked up so they know it's on the way.
- + Members can track their medications via our website or mobile app so they can learn when their treatment will arrive.

Reassuring TLC calls

- + Patient care coordinators call members the day after their medication arrives to address any treatment-related questions or concerns.

Freedom Fertility
By EVERNORTH

America's leading fertility pharmacy in your corner

Freedom Fertility® has dispensed exclusively fertility medications for over 30 years, so they have a deep understanding of member needs.

Reliable medication access

- + Same-day emergency fulfillment, with license to ship to all 50 states
- + Multiple brick-and-mortar locations across the country, including Accredo® same-day sites to make sure members get their medications quickly

Helpful resources for every part of the journey

- + The [Freedom MedTEACH® library](#), full of helpful member resources:
 - + Medication-specific injection training
 - + Multilingual videos
 - + And more

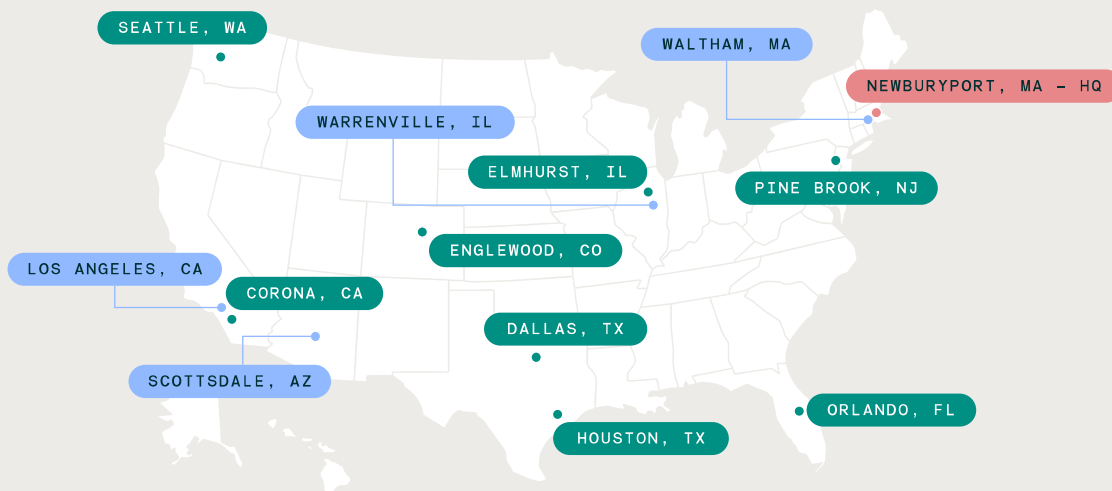

Comprehensive prior authorization (PA) guidance

- + The Freedom Fertility's Benefit Access Team initiates prior authorizations and utilizes online tools when appropriate
- + Notifies patients and prescribers about PA requirements and regularly follows up with insurance plans to check the status

Rigorous safety standards

- + URAC accredited and handling
- + State-of-the-art USP 795, 797 and 800 compliant compounding facilities
